

DOMINO'S PIZZA GROUP PLC ENVIRONMENTAL POLICY

At Domino's, we're driven by our purpose to Deliver a Better Future Through Food People Love. We therefore recognise the importance of protecting our planet and supporting the natural world. In our own operations, and in our work with our suppliers and partners, we're committed to operating in a way that minimises our environmental impact and makes a positive contribution to our planet and communities.

'Connect the Dots' Sustainability Strategy

'Connect the Dots' is the name of our ambitious sustainability strategy that we announced in 2023. Our approach includes several key focus areas categorised under Environment, Social Impact, and Governance (ESG). Within each of these areas, we have outlined various commitments aimed at minimising our impact on the environment and protecting the communities we operate in.

Environment

1. Achieving Net Zero by 2050
2. Reducing our reliance on problem plastics
3. Ensuring we minimise and recycle our waste

Societal Impact

1. Diversity, Equity & Inclusion
2. Improved Animal Welfare
3. Offering balanced choices
4. Charitable giving

Governance

1. Minimise risk of exploitation and maintain safe working environment in operations

More information about our Connect the Dots strategy, commitments and progress can be found on our website at corporate.dominos.co.uk, in our latest Annual Report and in our 2023 Sustainability Report.

Our Environmental Policy Commitments

Our Environmental Policy means we are committed to:

- Environmental Compliance
 - We are dedicated to meeting all legal and regulatory environmental requirements to demonstrate our dedication to environmental responsibility. As policies and procedures are constantly changing and updating, Domino's works to stay informed of and adapt to any regulatory changes.
- Product & Packaging Innovation
 - We are committed to improving the design, manufacturing, and distribution of our products & packaging to minimise environmental impact through their lifecycle. This commitment involves a focus on integrating circularity principles into our Supply Chain Centres and actively working to improve the recyclability of our packaging. As part of

Domino's®

WE GOT THIS

this commitment, we have signed up to the WRAP 'UK Plastics Pact' to tackle problem plastics within our supply chain.

- Sustainable Sourcing
 - Domino's is actively engaged in developing a more sustainable supply chain with an emphasis on creating a responsible and ethical approach to sourcing ingredients. We are committed to collaborating with suppliers to ensure our supply chain reflects our dedication to environmental and ethical responsibility and promotes positive social and environmental outcomes.
- Emissions Reduction
 - We are committed to reducing our Scope 1 and 2 greenhouse gas emissions by enhancing our fleet and transitioning to renewable energy sources. Additionally, we are collaborating with key suppliers to address our Scope 3 emissions. Our ambitious targets, which have been approved by the Science Based Targets initiatives (SBTi), aim for us to achieve Net Zero by 2050.
 - Further details regarding these targets, the key levers and our progress towards their realisation will be available in our 2024 Sustainability Report.
- Continuous Improvement
 - We recognise that environmental challenges are constantly evolving, and we are committed to constantly improving our performance by conducting regular reviews to identify and address areas in need of improvement.
- Monitoring and Reporting
 - Domino's maintains a consistent practice of monitoring and public reporting. We report our environmental performance each year in our Annual Report and provide further detail in our annual Sustainability Report. We also report through third parties such as TCFD (Task Force on Climate-related Financial Disclosures), CDP and SASB (The Sustainability Accounting Standards Board).
- Review and Update
 - This Environmental Policy will undergo an annual review to ensure it is current and in alignment with our evolving environmental objectives and initiatives, as well as wider regulations and operational procedures.
